# International Association for Impact Assessment

Impact assessment, simply stated, is the identification of future consequences of a current or proposed action. IAIA, simply stated, is the international association for people involved in impact assessment.

Since 1980, IAIA has been bringing together researchers, practitioners and users of the various types of impact assessment from around the world. It includes social, environmental, economic, health, and all other types of impact assessment.

One unique feature of IAIA is our mix of professions. This gives outstanding opportunities for interchanges, which are encouraged in various ways. Our members are university teachers and researchers, national and local government officials, corporate planners and managers, NGOs and public interest advocates, private consultants, policy analysts, and students. They cover the social and some natural sciences.

**Membership** IAIA has over 2,500 members from over 100 countries. There are active local groups in several countries.

IAIA has strategic partnerships with the World Bank, WHO, the Canadian International Development Agency, the Netherlands Association for Environmental Professionals, the US Council on Environmental Quality, etc.

## For information on IAIA

www.iaia.org or email info@iaia.org  
IAIA International HQ, 1330 23rd Street South,  
Suite C, Fargo, ND 58103-3705, USA.  
Telephone +1 701 297 7908

## Membership benefits

**Annual conferences** Puebla, Mexico, in 2011; Geneva, Switzerland in 2010; Accra, Ghana in 2009; Perth, Australia, in 2008; Seoul, Korea in 2007; Stavanger, Norway 2006; Boston 2005; Vancouver 2004; Marrakech 2003, etc. There are also local meetings.

**Impact Assessment and Project Appraisal**, the peer-reviewed journal mailed to you every quarter, and free online access to all issues back to 1999.
